SOGNO TOSCANO®
TUSCAN DREAM

As a single brand food distributor working with numerous partners, it is of utmost importance that we maintain the same level of quality throughout all of our products. From inception to delivery, restaurant to restaurant, we want chefs to know and trust that Sogno Toscano products are, and will always be, the very best.

At times this can be a double-edged sword. On the one hand, our dedication to research and development means that we can boast proudly about the superior quality of all our products, knowing that each one was carefully and intentionally designed and selected. On the other hand, we have discerning tastes which means that there are no excuses to be made when it comes to potential inconsistencies or defects with our products. We are intolerant of imperfection and work around the clock to maintain these high standards.

In addition to what we cultivate at our farm in Bolgheri, we spend time traveling to the far regions of Italy searching for the best food that our country has to offer. When we find it we develop it further through testing, sampling, and tasting. All of our products are GMO-free and FDA certified.

Designed for chefs and by chefs, we dedicate a great deal of time and research to the development of each new product and keep a close eye on packaging and delivery to ensure our own personal seal of safety. We're proud of what we make and know that it represents the very best of our country's contribution to the food industry.

We treat each shipment with precision and care, paying close attention to each step of the process through a series of checks. Whether it's finding the best tomatoes or finding the best way to package them, that commitment to quality is the cornerstone of Sogno Toscano.

It is the secret to our success.

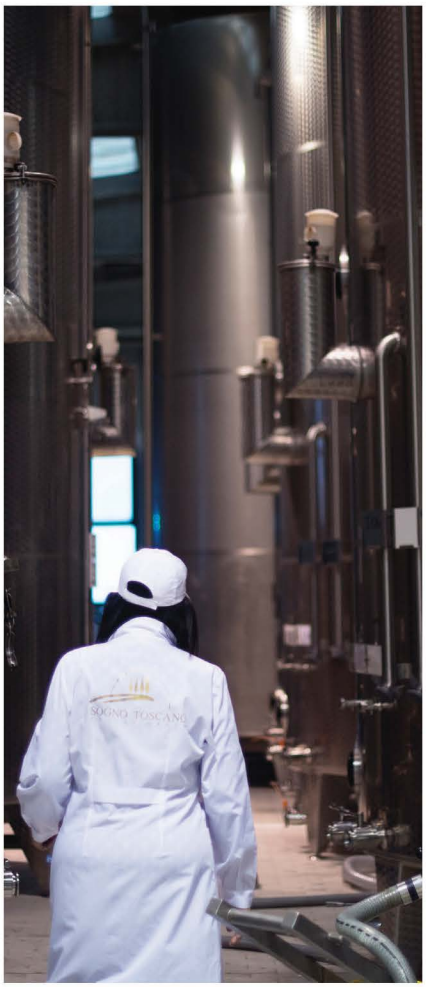

Pietro Brembilla
President

# OLIVE OIL

Our oils come in a wide selection from different sources. We understand that the recipe for success is to offer customers a huge selection of quality, each at the peak of their category, then let the customer decide which direction they want to take.

We have excellent 100% Italian Olive Oils that we pack directly in Italy, as well as delectable blends from the European community which we pack in the USA. We also manufacture an extraordinary line of naturally infused olive oils using the best local ingredients that Italy has to offer. Each year, in September, October and November we visit the various olive groves and choose the best harvest for our production and we guarantee that the flavor profile of our oil does not change over time.

The harvest has a very important role for the fruit characteristics, as well as the process of isolating its primary and secondary elements. We select the best team for the harvest each year and personally follow the gathering, storage and production process to the mill in order to produce an excellent oil that is balanced and suited to the needs of our customers.

It is a priority to us to give attention to the flavor profile in the finished product, as well as its color, balance and more importantly a consistency throughout the year. This is why our facilities preform precise packaging to ensure the freshness of the product.

# BALSAMIC

Our balsamic vinegar of Modena has origins that are lost in history. It is produced with grapes harvested exclusively in the provinces of Modena, fermented, acetified and then aged. Our vinegar is created combining the secret rules and basic principles of this ancient and fascinating product with the valuable aid of modern production standards. The result is a sublime and unique nectar which we select and control for our customers, in every phase of production.

# PRIVATE LABELING

*There is a certain confidence that comes from having your logo on the products you use.*

We understand that for chefs and restaurants this concept can seem intimidating and expensive, but it doesn't have to be. Sogno Toscano will help you take your business to the next level. Using your logo and brand strategy, we will create a beautiful and unique label that complements your business and solidifies your brand. Let us handle the manufacturing and regulations. Your products, complete with your logo, will be delivered straight to you.

Item # 11000.14

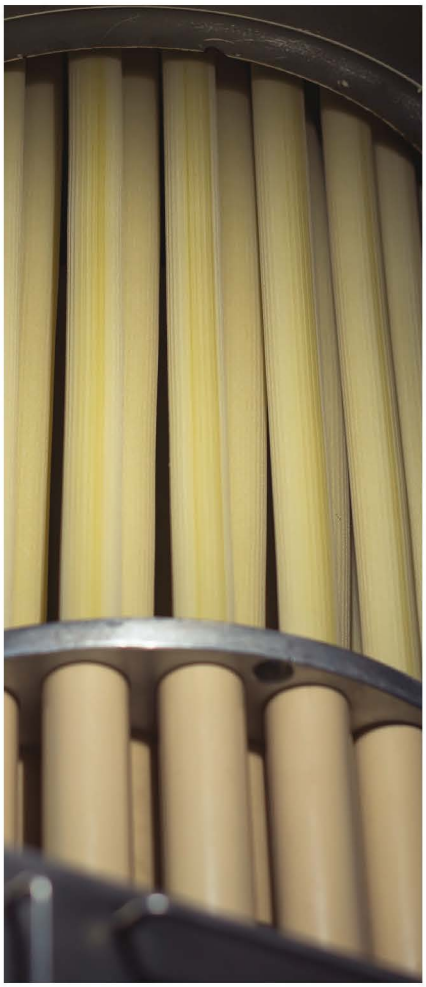

# IL GRANO

Our pasta factory is located in Val D'Orcia, a wonderful place known from ancient times for the cultivation of high quality durum wheat. The clay-like nature of the soil and the relative dryness of summer produce a hard wheat that contains a high index of protein (14 grams) and gluten quality for an unique dough texture and palatability.

The superb quality of the flour combined with the purest water that flows from 1000 meters in Monte Amiata make the Sogno Toscano dough an exclusive product with an inimitable taste. In the small town of Gallina, nestled amongst ears of corn, our factory regularly produces pasta using modern technology specifically created to maintain and preserve traditional artistry to provide our customers with the best product possible. Maximum attention and dedication are given to bronze drawing techniques, at both long drying times and low temperatures.

This slow process, aimed to preserve the quality of the raw material, makes Sogno Toscano pasta unique and appreciated for its refined taste, intense flavor, high protein content, texture and consistency while being used for your favorite dish.

# CERTIFIED TOMATOES

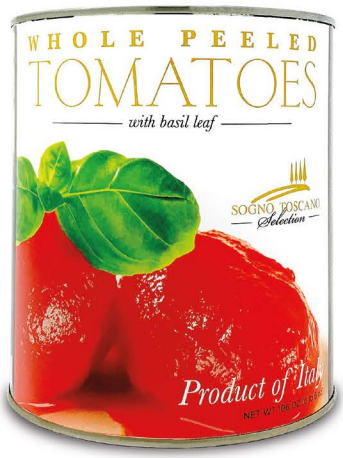

Every year in August our quality control team transfers to Campania, home to our tomato factories, in order to supervise the production process from the forefront. We make our product selection based on the tomato size and color intensity. We oversee the stripping of the tomato to ensure our customers that no skins are on the fruit and that the consistency of the juice is thick and full-bodied. We are able to do this using the Brix Value Scale, to ensure a value greater than 6.6 and we dispense of the tomatoes that are not up to standard. We then seal each tin with a basil leaf mark of guarantee. We choose and monitor the storage until delivery – our strength is our presence from beginning to end.

GMO FREE

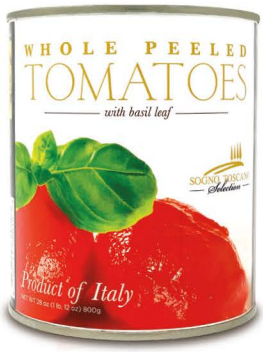

Certified Kosher.

# DALLA TERRA

Dalla Terra means "of the earth" in Italian, and that's exactly what we provide: natural, pristine, GMO-free Italian produce. At Sogno Toscano, we are committed to providing the highest quality produce the earth can give. Our work begins by finding the best of nature's bounty and ends with the careful production, packaging and delivery. We process our tasty artichokes, delicious olives and range of artisan pickled products in the traditions of our ancestors, while respecting nature and using the best modern technology to maintain the highest standards of health and safety. We offer the perfect mix of respect, conservation and craftsmanship in our products. We can meet all of your Italian produce needs, straight from our Italian farms to your table.

# IL FRESCO CHEESE

The selection of Sogno Toscano Parmigiano Reggiano and Grana Padano cheese comes from careful and meticulous research regarding the best dairy farms in Parma, Reggio Emilia and Modena. Our Parmigiano Reggiano is made with the same ingredients, in the same places using the same processes as they used nine centuries ago. We visit the farms, exclusive to the area where the cows feed on the best fodder - giving us an excellent milk which is the secret of greatness. A single cheese, thanks to the ancient processing method, cured slowly in its form.

At Sogno Toscano, we follow the entire production process and select for our clients the best batch, including a granular structure with flaked fractures, and the fragrant, delicate aroma. This, by no doubt, is a product of the highest quality, whose authenticity is guaranteed and marked by the Consortium, under precise rules applied with strict control.

# IL FRESCO MEATS

We select Parma, San Daniele and Toscano prosciutto of the highest category, guaranteeing safety and quality from the various consortia – from Parma to the San Daniele, the DOP label is a must - it certifies the cultural affinity of the meat and name. Our manufacturers are located over 1000 meters above sea level in either in the Emilia or Tuscan mountains where the air is arid and allows our prosciutto to dry in a manner unique and superior to other products.

This environment is renowned for beauty, scents and harmony which are essential elements of quality assurance that we look for in each product. We also look very carefully into the salt penetration procedure, as well as the storage, ripening and labeling of our prosciutto.

Certified D.O.P.

SOGNO TOSCANO

LIFESTYLE CAFÉ • SPECIALTY MARKET • WINE BAR

# LIFESTYLE CAFÉS N.Y.C

## WEST VILLAGE

### 17 PERRY ST. NEW YORK, NY 10014

Perhaps the only thing missing from our company's lineup was a brick-and-mortar location where customers can shop for provisions and to stop and enjoy a glass of **Italian wine** or an **espresso**. Enter **Sogno Toscano Market & Wine Bar.** Situated on the quaint corner of Perry Street and Waverly Place in New York City's West Village, Our Market & Wine Bar features big windows and a charming yet contemporary façade. Pass by our outdoor seating where you can enjoy a panino al fresco and step into the shop, with its bounty of Italian provisions, including pasta, tomatoes, olives, sauces and of course our renowned **olive oil**.

Come and Join Our Famiglia!

## CHELSEA

### 508 W 28TH ST, NEW YORK, NY 10001

Our second brick-and-mortar location is in the beautiful and historic neighborhood of Chelsea, on the West Side of Manhattan. Tucked under the **High Line**, the elevated park built atop former railroad tracks and surrounded by local art galleries, our Chelsea location offers a contemporary façade, plenty of outdoor seating and a stylish interior that is nothing short of work of art.

**We are continuously introducing new products to our inventory – so much, in fact, that it is difficult for our printed materials to keep up. Ask your Brand Ambassador if there are any new products that are not represented in this brochure and check our online version →**
